CONSULTATION FOR COSMETIC SURGERY

Dr. Langdon offers a consultation for patients who would like to learn more about cosmetic surgery procedures. This consultation does not include evaluation or treatment recommendations for medical or non-cosmetic conditions. Medical evaluation is generally covered by health insurance.

Medical or non-cosmetic health issues should generally be addressed in a regular dermatology appointment. At your request Dr. Langdon may address some of these issues during your cosmetic consultation. You should understand that if significant non-cosmetic services are provided (for example writing of prescriptions) there might be an office visit charge for medical services.

PAYMENT FOR SERVICES

Cosmetic surgery is not a covered service by most health insurance plans. Payment for cosmetic services is the responsibility of the patient. We will provide you with a quotation sheet that details the charges for any proposed cosmetic procedures. We accept payment in the form of cash, check, or credit card.

Would you like information about our financing program for cosmetic surgery? Y____N____
